SAFE AREA
Take care to ensure none of your important stuff encroaches into the safe area. Text and graphics placed too close to the edge look untidy and are at risk of being trimmed off.

TRIM
This dashed line indicates the document's finished size once trimmed.

BLEED
The area any background elements should cover if you want them to extend to the very edge of the page.

FOLD
This dashed line shows where the folds will be on the final product

We require 3mm bleed all round.

When you're done, please don't forget to hide these guides in the layers window!
